

From deburring to finishing, the **2545SVR** increases production rates and reduces repairs, fatigue and injury. With no gears the **2545SVR** tools have a head angled at 45° for comfort and easy access. The **2545SVR** can perform tasks requiring slower speeds and increased power, such as grinding, deburring and polishing. Standard collet capacities of 1/4" and 6 mm, with several optional collets for smaller and metric applications. These tools are gearless and have no moving parts in the handle. Result - a lighter tool with greater reliability! The **2545SVR** has a rear exhaust to help keep the work area clear of debris.
